MESSAOUDENE MOHAMED

PROFILE

Motivated full-stack developer passionate about building efficient and scalable applications. Adaptable and eager to learn new technologies. Excited about tackling challenges and continuously improving skills in software development.

COMPETENCIES

- **Frontend:** HTML, CSS, JavaScript, Tailwind CSS, React JS, Mui.
- **Backend:** Express JS, Laravel PHP, Rest API, GraphQL, Authentication (OAuth, JWT, Sessions), Payment gateways integration (Stripe, PayPal).
- **SQL databases:** MySQL, PostgreSQL. **NOSQL databases:** MongoDB, Redis.
- **Other:** Git & GitHub, Linux, Docker, TypeScript.

EDUCATION

National Higher School of Telecommunications and Information and Communication Technologies

Oran, ICT Engineer | 2020 -----> June 2025

EXPERIENCE

Frontend Developer – GamifierSA (Contract)

Saudi Arabia · Remote · May 2025 – Present

Contributing to a gamification platform by developing responsive interfaces with React.js, Tailwind CSS, and Material-UI, integrating APIs with backend services, and ensuring performance, reusability, and design consistency.

PROJECTS

NearClinic (Frontend)

Technologies: React.js, Tailwind CSS, TypeScript, React Query, i18n (English/Arabic).

Built a platform for patients to search and book clinics by location/services, with multilingual support (EN/AR). Added clinic detail pages, booking flow, and a dashboard for clinic owners to manage schedules and appointments.

ShareFiring Landing Page & Dashboard (Full-Stack Project)

Technologies: React, Tailwind CSS, Inertia, Laravel, MySQL.

Delivered a complete freelance project including a modern marketing landing page and an interactive dashboard for managing content and users. Integrated responsive UI with Tailwind, dynamic routing via Inertia.js, and backend APIs in Laravel with MySQL database support.

Social Media Website (Full-Stack Project)

Technologies: React.js, Material-UI, Node.js (express js), PostgreSQL, Sequelize.

Developed a platform with session-based authentication, profile management, media uploads, and post interactions (likes, comments), including Light/Dark mode support.
